

## SMS Series

### Overview

Highly adaptable and flexible solution, 24online appliances are engineered that they can easily gel-into any existing network without any technical hassles! 24online offers range-of-appliance to choose from, according to network-size and concurrent users. 24online range-of-appliance helps you create a safe haven for you and your subscriber's network.

Available on a single platform, 24online meets requirements of medium to large service providers, hotspots, cafes, universities, etc. with franchisees and large operations through distributed 24online appliances functioning as Access Gateways. With such decentralized functionality, 24online supports scalability in operations,

allowing large providers to offer broadband and Wi-Fi offerings across cities or even countries

24online SMS series is capable of real-time billing and bandwidth delivery, a comprehensive solution, compliant with lawful interceptions issued by government bodies and inculcated with unique features and embedded with latest state-of-art amenities. 24online SMS series also protects from hardware failure and data loss to reduce downtime and supplies seamless internet flow. Extensive reports maximize network efficiency. Innovative investment opportunity for majority of small providers, educational institutes, government organizations, hotels and group of hotels with small to large property.
